PLANETELF ACD

Compressor

Synthetic polyolester oils for refrigerating compressors using HFC refrigerants.

UTILISATIONS

Refrigerating compressors using HFC refrigerants

- Compatible with all kinds of HFC refrigerants: R134a, R404A, R407C, R410A, R507, R23...
- PLANETELF ACD 32, 46 and 68 are suitable for piston compressors.
- PLANETELF ACD 68, 100FY, 150FY and 220FY are suitable for rotary compressors (screw or centrifugal).

SPECIFICATIONS

International classification OEMs

- ISO 6743-3: DRD
- AERZEN, BOCK, FRASCOLD, GRAM, GRASSO, HOWDEN, MCQUAY, SABROE, SULZER, YORK.

ADVANTAGES

Protects the different components of the refrigerating loop

- ASHRAE thermal stability tests confirm the excellent behavior of the lubricant at high temperature in presence of refrigerant, water and metallic components.
- Neutral behaviour with the refrigerating equipments (Anti-rust, anti-corrosion properties with copper metals, compatibility with varnishes, elastomers and paints, high resistance to hydrolysis)

Enhances the efficiency of the refrigerating equipment

- Low dilution of refrigerant in oil for the high viscosity grades (PLANETELF ACD FY range), for good lubricity and oil separation properties (low carry-over)
- The good miscibility of the fluid viscosities of PLANETELF ACD allows a good oil return property, specially in dry-ex equipments.
