

**BW FINEDRAW 1100****Water insoluble Drawing Fluid**

**Description** **BW FINEDRAW 1100** is designed to be suitable for aluminium wire, bar drawing operations providing high lubricity by using a excellent lubricant additives and friction modifier.

**Benefits**

1. Lubrication additives reduce the friction.
2. It has a good antirust properties.
3. Excellent oxidative stability and long sump life.
4. Improved surface finish and no scratching.
5. Less deterioration and excellent antioxidant.

**Typical properties**

Items	Results	Test method
Appearance, conc	Yellow liquid	-
Specific gravity, 15/4 °C	0.893	ASTM D1122
Viscosity, 40 °C, mm <sup>2</sup> /s	112	ASTM D445
Flash point, °C, COC	215	ASTM D92

\* Above test results are new fluid's typical properties, can be changed by quality improvement.

**Application** It can be used at drawing operations of Copper or Aluminium(alloy)  
It is suitable for low speed drawing process of medium~fine sized wire.

**Term of validity** 12 months from the date of manufacture at sealed state, 0 to 40 °C .

**Safety information** Refer to the our MSDS for safety information

- 1.attention subject (when use)  
Completely remove existing fluids,chips from system.  
Keep drum sealed.  
Do not allow moisture penetrate into Neat type oil.  
Storage drums laid and avoid contacting with land.
