

(AS-1123SW)

ANTISCALANT AGENT FOR SEA WATER TREATMENT

DESCRIPTION

AS-1123SW is an advanced antiscalant agent invented for sea water treatment purpose. It works adequately to eliminate soluble and non soluble iron as well as inorganic scales such as CaCO_3 , CaSO_4 , BaSO_4 , SrSO_4 , CaF_2 . Comes up with liquid form with acid base pH concentration to control inorganic scaling and fouling on membrane surfaces.

ADVANTAGES

- Convenient use of direct application.
- Adequate formula to prevent scaling and fouling.
- Long term valuable maintenance product.
- Stability offered to a various temperature condition.

PRECAUTIONARY STATEMENTS

ATTENTION: May lead to eye inflammation. Avert contact with eyes and sensitive skin. Rinse with soap and water after handling and before eating. Take off and wash contaminated clothing before reuse. In case of eye contact, cleanse thoroughly with water for 15 minutes and get medical help if irritation recurs. Rinse skin contact areas with soap and water. If consumed, provide 1-2 glasses of water or milk and cause to happen vomiting by tapping finger into the back of victim's throat. Retrieve medical help. Pay attention to all safety provision shown on the label and in the Material Safety Data Sheet.

ATTRIBUTES

Appearance : Amber Color Liquid Form
Density (g/mL) : 1.0 - 1.2
pH (1% solution): 1.5 - 3.0

DOSAGE

AS-1123SW usage may vary depends on the hardness level. For instance, the optimum dosage is about 3 - 10 ppm.

PACKAGING

AS-1123 SW Packaged in 25 Kg pail.

HANDLING AND SAFETY

AS-1123SW can cause severe damage to eyes and skin. Avoid contact with eyes and skin to prevent serious injury. Please refer to detailed information about product's hazard data sheet. Immediately, seek for medical advice to treat serious injuries caused by inappropriate handling with this product.
