RUSTIC 80

HENDERSON

80kg | Wood | Metal | Interior

Unique sliding door hardware with beautifully crafted barn style hangers, for doors weighing up to 80kg

Overview

Rustic 80 is ideal for barn conversions, period properties or simply for a unique feature in the home. Suitable for internal doors weighing up to 80kg, the system creates a traditional look for sliding wooden or metal doors with the exposed steel straps fastening down the front of the door to support the rustic finish. The system is available in a choice of finishes including; matt black powder coat, stainless steel or our new antique rust effect. Tracks are available in 2m or 3m lengths and a fittings kit can be purchased for when an extra door is required.

The system is also now available with an included single or dual soft close - a great addition to get the most out of your Rustic system. Simply push the door and the soft close will gently decelerate the door and glide it into its final position, preventing unwanted slamming. The easy to install soft stop kit can be fitted to new or existing applications and can be combined with any finish of kit due to its discreet design.

Features and Benefits

- Available in 2m or 3m track lengths
- Black, stainless steel or our new antique rust finish
- Fittings kit available for double door specifications
- Available as standard, single soft close or dual soft close
- Installation video available at www.pchenderson.com
