

Basis 6177

pH/mV/Temp Benchtop Meter

Introduction

The Basis Series pH/mV/temperature benchtop meter contains the same ease-of-use and accurate readings of its popular predecessor, but is now in a streamlined form factor that is similar to that of the Stream Series.

Features

Large, high contrast, backlit LCD displays pH/mV and temperature simultaneously

Simple calibration with automatic buffer recognition of US and European buffer sets

Calibration data is stored in memory and is ready for use on power up

Automatic / manual temperature compensation

Automatic lock mode and end point sensing lock in stable readings

AC adaptor or battery power with low battery indicator
