

Probeless MP Meters

Hach's MP Meters offer single-handed, portable operation for spot checking the pH, ORP, conductivity, resistivity, Total Dissolved Solids (TDS) and temperature of clean water. Sensors are built into an integrated sample cup, allowing for efficient, high-throughput testing of samples from spigots or dip testing. MP Meters are rugged enough for daily process checks in challenging environments, including boiler rooms, cooling towers, and industrial work floors or laboratories.

Part Number	Model	Kit?	Parameter	USD Price
HMP6EP	MP-6	Yes	pH, ORP, Conductivity, TDS, Resistivity, Temp	Contact Hach
HMP6	MP-6	No	pH, ORP, Conductivity, TDS, Resistivity, Temp	Contact Hach
HMP6PEP	MP-6	Yes	pH, ORP, Conductivity, TDS, Salinity, Temp	Contact Hach
HMP6P	MP-6	No	pH, ORP, Conductivity, TDS, Salinity, Temp	Contact Hach
HMP4EP	MP-4	Yes	Conductivity, TDS, Resistivity, Temp	Contact Hach
HMP4	MP-4	No	Conductivity, TDS, Resistivity, Temp	Contact Hach
