

SK100 Pro

- 1 The power system selects the well-known brand china II turbo engine , strong power, big traction, low fuel consumption, and sound service network.
- 2 The engine and torque converter connection body is specially designed for large-size connecting plates, which has high cost and more reasonable matching.
- 3 Advanced hydraulic system design, improve lifting quality, reduce three items and time, improve work efficiency.
- 4 High cost and large wheelbase design, reasonable distribution of alex load, high stability of the whole machine.
- 5 33°steering angle, flexible steering, light and efficient.
- 6 International advanced noise reduction technology, low vibration and high operating comfort.
- 7 The fuel tank adopts double inlet and outlet oil filter design to effectively improve the cleanliness of the hydraulic system and prolong the service life of hydraulic components.
- 8 Fine pipeline design, rationalized pipeline layout, easy to check and repair, beautiful and practical.
- 9 The bucket hinge has a double-layer dust seal lubrication structure to extend the maintenance cycle.
- 10 The accelerator pedal and brake pedal are equipped with rubber pads to prevent slipping, improving operating comfort.

ITEM	SPECIFICATION	ITEM	SPECIFICATION
Rated load(kg)	2000	Dumping height (mm)	3500
Bucket capacity (m ³)	1.1	Tyre model	16/70-20
Operating weight (kg)	5300	Min. turning radius (mm)	4400
Engine model	YUNNEI4102 Turbo	Transmission type	265 Torque Converter
Engine power(KW)	76	Overall dimension	5400*1900*2800
