# **Vanili Indonesia**

---

The Greatest and Best  
Vanilla in Indonesia

# Vanili Indonesia

For growth media, nursery, and plantation located in Tanjung Lesung, Pandeglang, Banten and for factory, marketing, and head office located in Pagedangan, Tangerang, Banten.

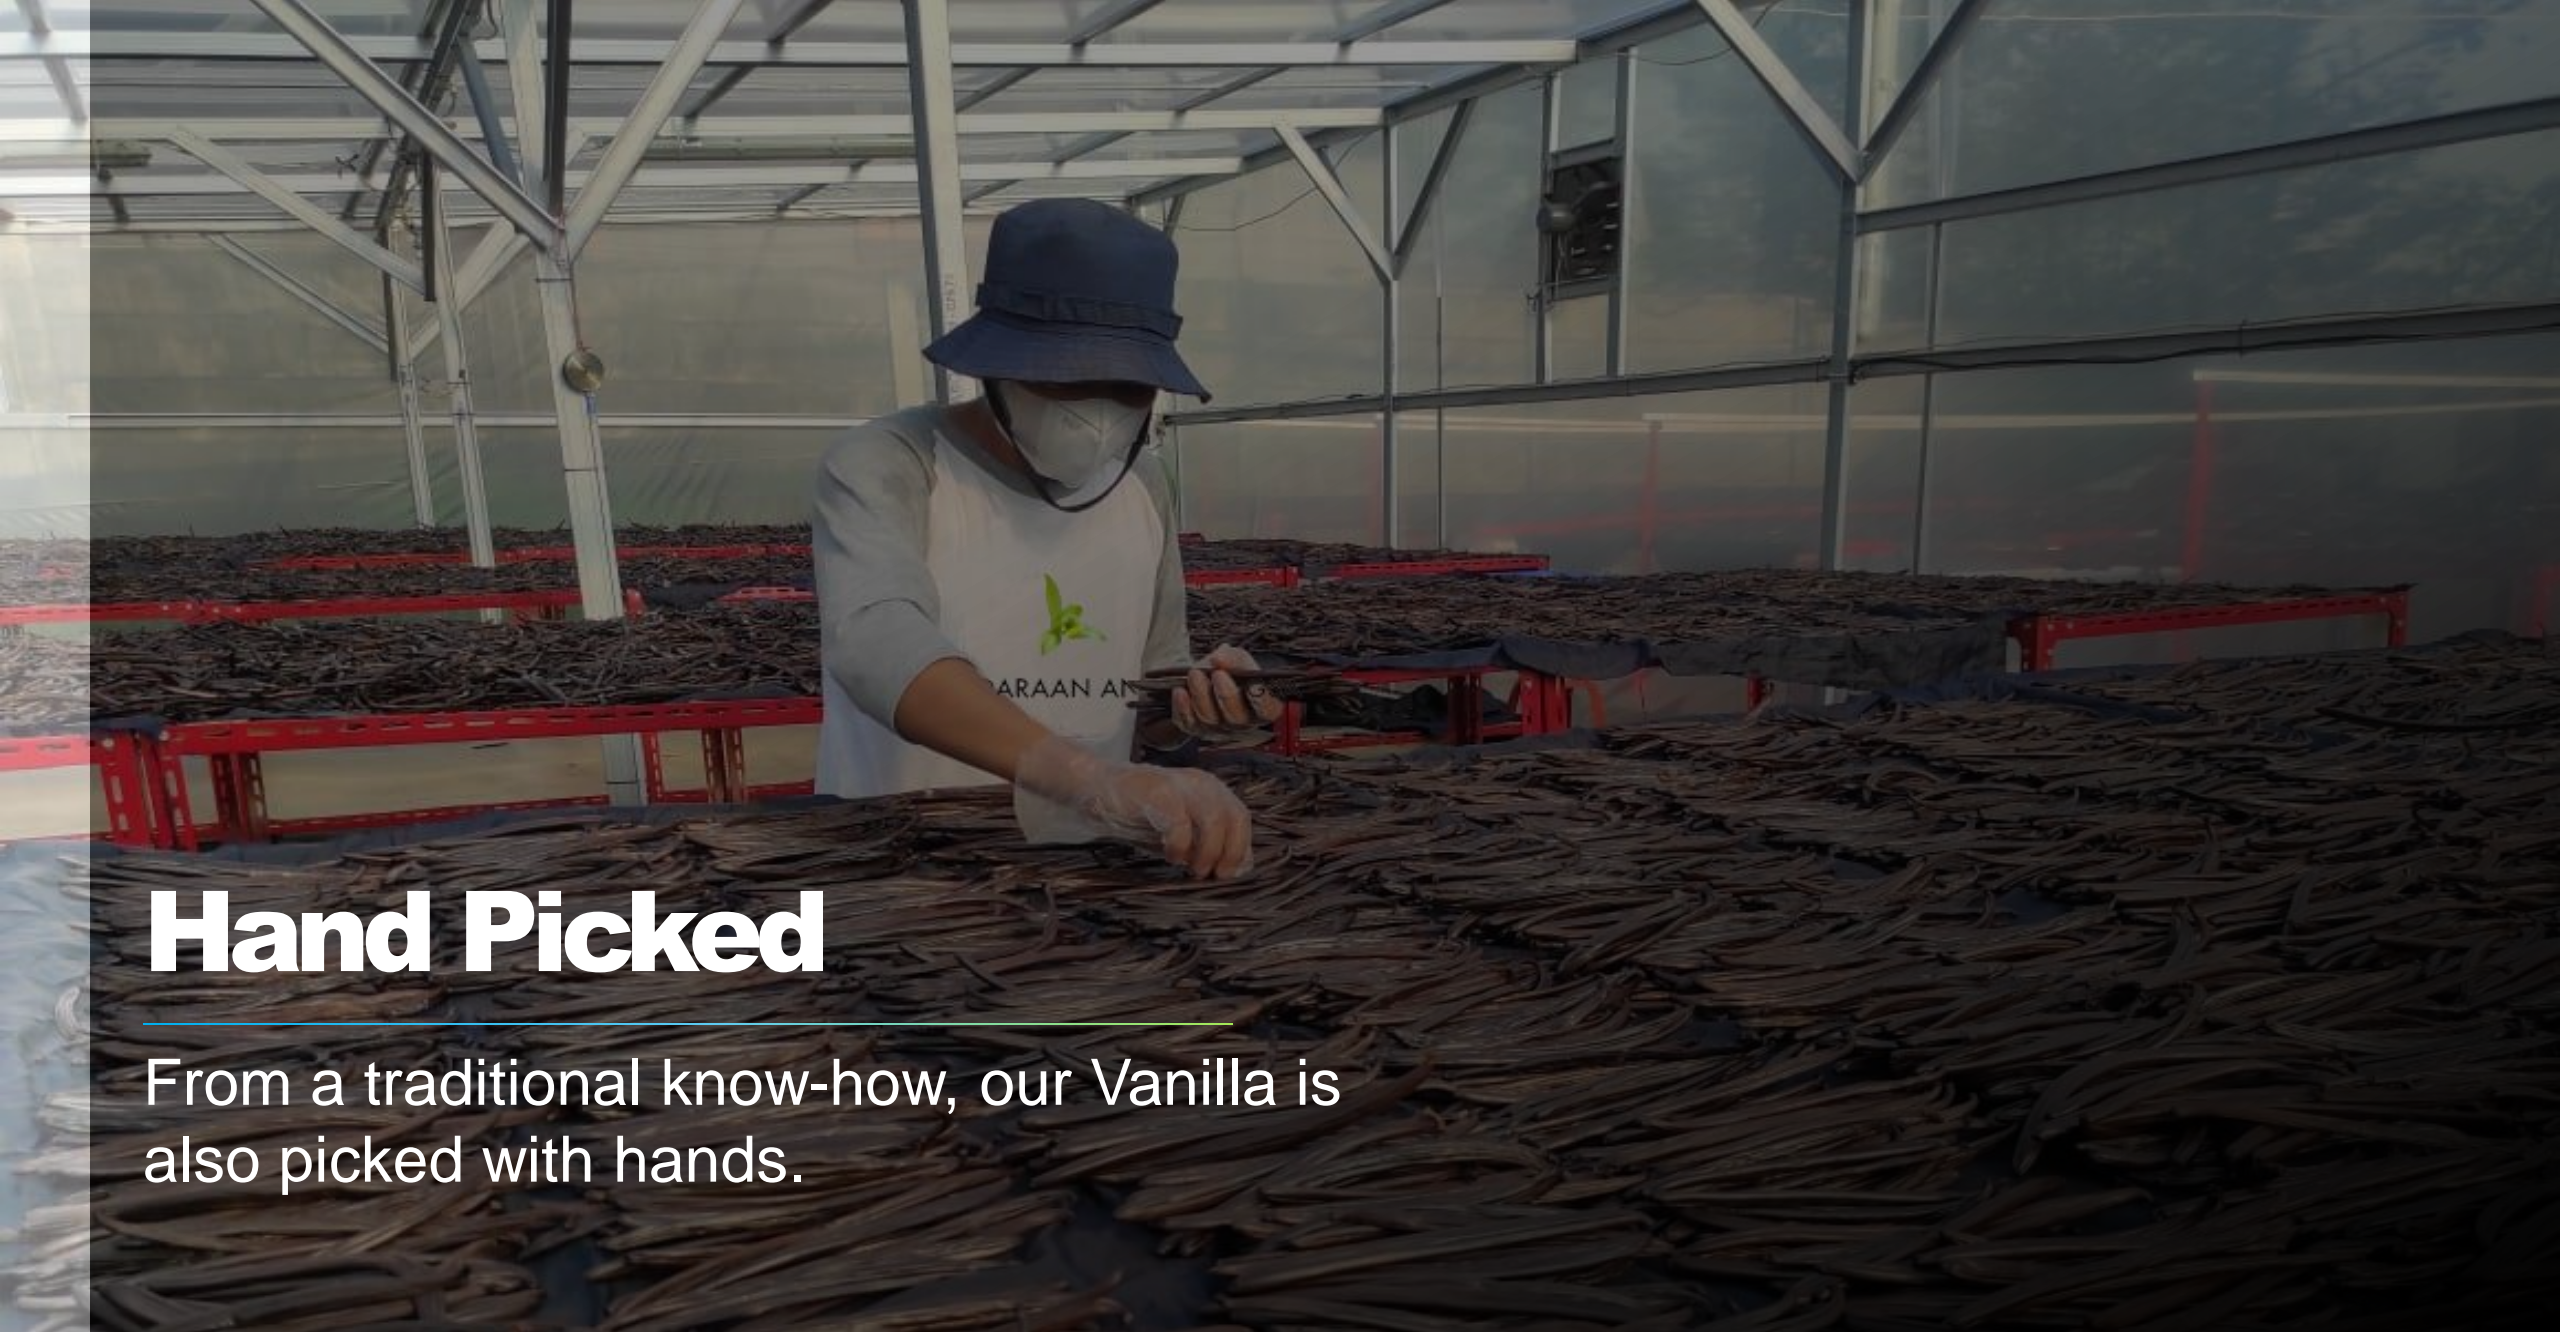

## About Us

---

PAB was established in 2020. PAB is a company engaged in vanilla agriculture include cultivating, processing, and marketing vanilla. PAB is under management of JHL Group.

# Hand Picked

From a traditional know-how, our Vanilla is also picked with hands.

# Curing Process : Green Vanilla

## Green Beans

Collect from farmers in various region : NTT, Palu, and West Java

## Washing Beans

Wash from dust and unwanted items and rinse beans quickly

## Dipping and Sweating

Dipping “kills” the bean, stopping growth and releasing the enzymes

# Curing Process

## Sweating

---

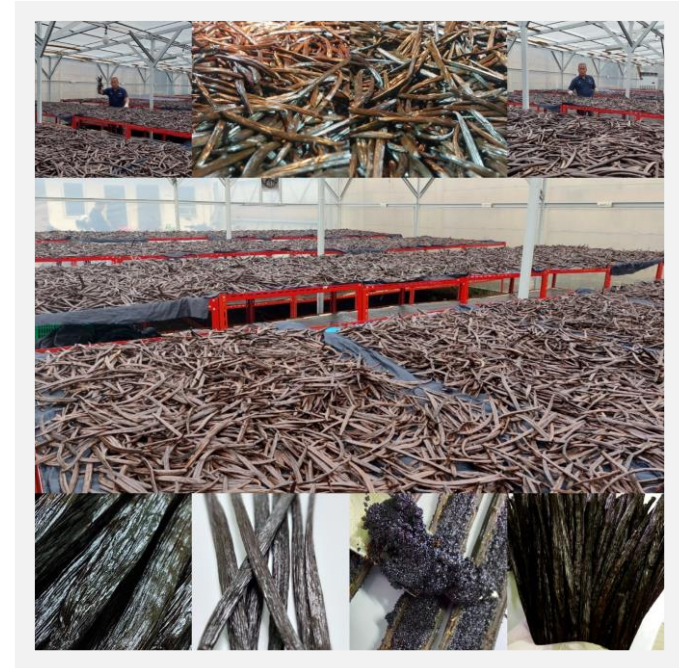

After dipping, the beans are fermented, or “sweated”

## Drying

---

The beans start out quite wet. The beans are closely monitored and constantly sorted by moisture content

## Conditioning

---

The beans are exploding with aroma and flavor, and almost ready

# Vanilla Packaging

## Packing Vanilla

Collect from farmers in various region : NTT, Palu, and West Java

## Vanilla Beans

The sale of vanilla to the public in relatively small quantities for use or consumption

## How to Order

We available vanilla beans gourmet, red extract, and cuts. Go to contact for get in touch

# Plantation

## Growth Media

---

Growth media were designed to support the growth of baby vanilla

## Nursery

---

A nursery is a place where plants are propagated and grown to a desired age

## Laboratory

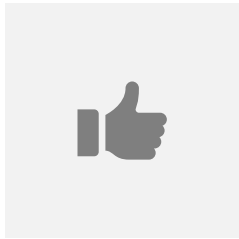

---

Lab support used to either perform an experiment or to take measurements and gather data.
