HAND PALLET TRUCK

— Japan Quality —

FOUNDED 1934

OKUDAYA GIKEN CO., LTD.

ESTABLISHED 1954

OSAKA JAPAN

Hand Pallet Truck further evolved

The comprehensive technology of OKUDAYA GIKEN as a leading manufacturer has developed complete new models taking over the excellent performance of the long sellers.

✓ Incorporates a resin-made handle.

The material has been changed from iron to smooth lightweight resin with improvement in functionality. The strength of the handle is preeminent for a resin-made component.

✓ A completely new handle design.

Based on a universal design concept, the handle has been changed in shape completely. OPK's new handle was designed in pursuit of a form that is easy-to-use for everyone, which allows flexible handling with delicate angle adjustments.

✓ Steering wheel with aluminium core.

The core has been changed from cast metal to aluminium. The weight reduction of the steering wheel ensures smooth handling.

✓ OPK's unique operation method.

The lever can be set to the neutral position with ease by pulling up the lever in the front direction. No delicate adjustments are required. OPK's Hand Pallet Truck has been adopting this unique method over many years in consideration of the operability and safety of the lever, thus gaining high evaluation and trust of all Catch Pallet Truck users.

✓ A variety of options to meet on-site needs.

Making the best use of OPK's longtime experience and know-how, OKUDAYA GIKEN has prepared a variety of options to meet all on-site environments and operating conditions. OPK's product variations in a wide variety in combination with these options respond to a wide range of customer needs.

(For details, see page 6.)

Standard Type

Standard Models, Standard Types

A unique design with no maintenance effort required promises epoch-making cargo transfer. Select the best suitable model from wide variations.

Specifications for Standard Types

Model	Specification	Capacity (kg)	Min. H (mm)		Max. H (mm)	Fork (mm)					Overall length (mm)	Overall height (mm)	Steering wheel Dia. φ width (mm)	Load wheel Dia. φ width (mm)	Net weight (kg)
