

**Hydraulic angle steel cutting tool** Features:

1. Fast cut with smooth cutting surface; without noise
2. Easy to take to outdoor job site
3. Equipped with quick coupler for easy disassembly
4. Connecting single-action hydraulic pump

## ● CAC-75

Hydraulic angle steel cutting tool

Model	CAC-75
Cutting Force	23t
Rated pressure	700bar
Cutting Capacity	75x75x8mm
Weight	19kg
Packing	Steel case

## ● CAC-110

Hydraulic angle steel cutting tool

Model	CAC-110
Cutting Force	45t
Rated pressure	700bar
Cutting Capacity	110x110x10mm
Weight	41kg
Packing	Steel case

**Sheet steel puncher** Features:

1. Easy to operate, smooth punching hole, no flash and burr
2. In addition to the regular round hole, it can also be customized square hole

## ● SH-10B

Model	SH-10B
Cutting Force	9t
Rated pressure	700bar
Punching capacity	Plain sheet steel 3.2 mm, Stainless sheet steel 1.6 mm
Punching range	21.8~115.5mm
Standard dies	1/2" to 2" , 6 sets
Weight	11kg
Packing	Steel case

**Mechanical punching tool** Features:

1. Leverage principle, screw force, easy operation, high efficiency
2. Punching one hole only need 20~30 seconds
3. Made of ultra-high strength alloy steel, light weight and easy to carry

## ● CKJ-1

Model	CKJ-1
Punching Thickness	≤10mm
Weight	16kg
Throat Depth	65mm
Standard Accessories	13" 15" 17" 19" 21"
Packing	Plastic cases

**Battery powered punching tool** Features:

1. Built-in microchip controller, easy to read and record use of information, automatic pressure relief, two-stage hydraulic system
2. High capacity 18V lithium battery with power display, with fast charger
3. LED working light for dark place

## ● EH-25

Model	EH-25
Output Force	12t
Rated Pressure	700bar
Max. Thickness	Angle steel 6mm, Cu/Al 6.5mm
Throat depth	25mm
Standard	Punching dies 10.5,13.5,17.5mm
Weight	10kg
Packing	Plastic case
Optional punching dies	Punching dies below 17.5mm

**Battery powered steel sheet punching tool** Features:

1. Built-in microchip controller, easy to read and record use of information, automatic pressure relief, two-stage hydraulic system
2. High capacity 18V lithium battery with power display, with fast charger
3. LED working light for dark place

## ● ECT-10B

Model	ECT-10B
Output Force	6t
Rated Pressure	700bar
Punching Capacity	Plain steel plate: 3.5mm thick, 1/4~3" Stainless steel: 2.5mm thick, 1/4~3"
Weight	3kg
Packing	Plastic cases
Standard	Dies 1/4~3"

**Four-hole punching machine** Features:

1. It can punch one hole, two holes, four holes at the same time
2. Quick punching with smooth punching surface without burr; positioning plate design for precise location without offset
3. Make punching safe and clean without punching chipping
4. Portable for mobile operation, also suitable to fix in workshop for batch cut work
5. Powered by double acting hydraulic pump

## ● SH-4D

Model	SH-4D
Output Force	100t
Rated Pressure	700bar
Single punching number	One, Two, Four
Punching Thickness	Thickness 26mm, width 200mm or less
Distance of four holes	40mm~60mm
Weight	87kg
Packing	Steel Case
Standard Accessories	Ø18mm punching die, Die fixing block
Optional Accessories	Punching dies customized
