

FEATURES:

- Light weight
- AC220V 50HZ universal motor works well with long extension cords
- Use high-performance tandem motor, features of big start-up force and a small volume to carry easily, the speed and current can be adjusted automatically to enlarge its moment of force when the load becomes higher; even under high pressure($\geq 32\text{MPa}$),the hydraulic pump also can start easily.
- The tool equipped with a double piston pump, high efficiency cycloid gear pump which provides higher current, the ram with the plug-in plunger is for easy assembling and replacing of the high precise part, the output in the high pressure is much more stable.
- With built-in oil spout lubricating device, it can help the internal driver component away from dry friction.
- Use high Stability impulse safety valve to assure that pressure output is much constant and safe.
- Great for medium-sized cylinders.

Item.No:TEP-700B

Working Power:	AC220V 50HZ	Oil capacity:	2L
Power Rating:	0.75 kw	Weight:	17KG
Nominal delivery capacity:	low pressure 4L/min	External size:	210x210x340
	high pressure 0.5L/min	Hydraulic oil :	HV15 hydraulic oil
Max working pressure:	70Mpa	Speed:	20000r/min

Item.No:ZCB6-6 half closed style

Rated output:	70Mpa
Motor voltage:	220V/380V
Motor power:	750W
Rate of output:	High 0.7/min
	low 5L/min
Oil capacity:	8L
Speed:	1400r/min
Weight:	22KG
Size:	30x24x38cm
