

MK 36-300

Gas Hand Cutting Torches

Expertly Crafted, Heavy Duty Gas Cutting Torches

Each cutting torch is built to the highest standards, then stringently tested to insure safe; long life operation. Designed for the professional for use in industries such as metal fabrication, shipyards, salvage, construction and other general purpose uses.

Features & Benefits

- **Five Models Available**
All produce high quality cuts; compact and easy to use.
- **Tip Mixing System**
The Three Land Tip Mixing system assures greater safety and reduces the risk of flashback and backfire.
- **Cutting Tips**
Koike 100 series cutting tips are recommended and available for all medium pressure fuel gases.
- **Precisely Balanced**
Provides ease of use in any application.
- **Three Stainless Tubes**
Stainless steel tubes provide strength and durability while keeping gases separated to mix safely in the cutting tip.
- **Chrome Plated Finish**
Durable chrome plating provides corrosion resistance and ensures smooth coupling.
- **75, 90 and 180 Degree Angle Torch Heads**
Various head angles allow specialty cutting for any application.

“A Cut Above the Rest”.

MK Torches

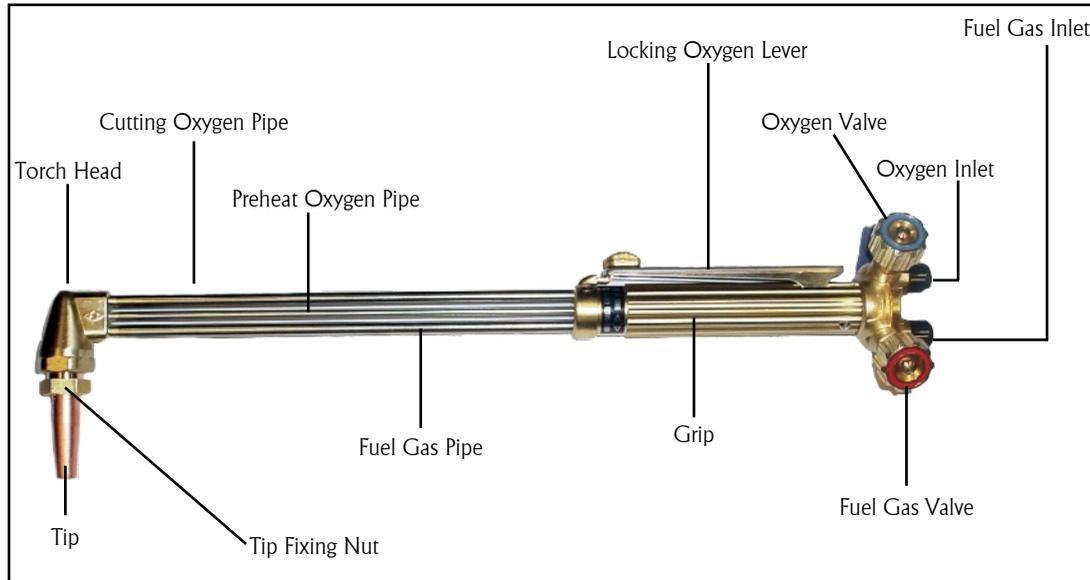

- **Die Forged Head**
Increased strength and service life
- **Heavy Ribbed Handle**
Provides good ventilation and a sure handed grip on the torch.
- **Easy Grip Gas Valves**
Allows gloved hands to quickly and accurately set pre-heat flame.
- **Internal Tip Nut**
Protects threads in torch head.
- **Ease-On Cutting Valve**
Reduces slag blow back when piercing.

ACCESSORIES	
Quick Couplers: Safety-Z Coupler WZO (Torch to Hose set) Super Sentinel Coupler (Locking coupler set with flashback arrestors)	ZA3232260 ZA3232190
Flashback Arrestor: Sentinel Plus Flashback Arrestor (Regulator to Hose set)	SPFASET
Regulators: Custom-101 (oxygen) Custom-202 (Acetylene, CGA-510) Custom-206 (LPG, CGA, 510P)	CUSTOM101 CUSTOM202 CUSTOM206

Lifetime Warranty

When using genuine Koike cutting tips, receive a lifetime warranty against damaging flashback. Our cutting tips offer a unique flashback resistance feature. We're so confident in our torches and cutting tips, that if our torch sustains a damaging flashback while using a genuine Koike cutting tip, we will replace or repair the torch free of charge. (Damaged tip and torch must be returned to Koike)

Don't forget to add our Safety-Z couplers for added safety and convenience.

Custom Regulators - Koike's 101 single-stage oxygen regulator and 202 single-stage acetylene and 206 LPG regulators meet the industry needs for safety, reliability and economy. Assure your cutting, welding and heading operations to be safe and effective with Koike custom regulators.
