

ZOOM STEREO MICROSCOPE

Model: VJS-8050

- VJS-8050 Zoom Stereo Microscope is specially ideal for research workers with 3A design: Airtight, Anti-mold, Anti-electrostatic, and it has zoom ratio: 6.3 : 1 and long working distance: 115mm, which provide sharper and stronger image to make quality is very excellent.
- It is fully matched for the semi-conductor and chip inspection and others industries.

Specification:

Eyepiece: WF10x/22mm

Zoom objective magnification: 0.8x ~ 5x

Total magnification: 8x ~ 50x

Interpupillary distance: 52mm ~ 75mm

Zoom ratio: 1:6.3

Working distance: 115mm

Angle of view: 45 degree

Illuminator: Fluorescent ring light, LED ring light & Fiber optic ring illuminator

Model: VJS-8050

Model: VJS-8050T
