VICTOR[®] CUTSKILL[®] MEDIUM AND HEAVY DUTY REGULATORS AND OUTFITS

ADD VALUE WITH NEW STYLING AND PACKAGING

The Victor CutSkill line of regulators and outfits are taking advantage of new design advancements to provide purchasers greater performance and value. Effective March 1st, CutSkill series 250 and 350 regulators and outfits will transition their design and packaging to reflect these value-added enhancements, including:

- Ergonomic, easy to adjust color-coded knobs that identify gas type
- Fabric reinforced neoprene diaphragm for optimal performance
- Zinc-aluminum housing cap is twice the yield strength of brass
- “Green” environmentally friendly packaging with strong retail display presence
- Lighter, uniform package size for easier shipment/stocking and reduced shrinkage*

Victor CutSkill Medium Duty Outfit

DESIGN, CONSTRUCTION AND PERFORMANCE OF THE SERIES WILL BENEFIT FROM:

- Single stage design
- Durable forged brass body
- Robust stem type seat mechanism
- Powder coated bonnet with increased strength
- Easy to read 2" dual scale gauges
- Maximum inlet of 3000 psig

Victor CutSkill Medium Duty Regulator Packaging with Cutaway

And most important, the new D-series CutSkill regulators and outfits (replacing the current RC-Series) will offer all these improvements at the SAME PRICE – leading to MORE SALES!

Check out all the new part numbers on the chart on the next page.

* CutSkill outfits are shipped two to a master carton and the CutSkill regulators are shipped six to a master carton.

Q1 2011 VICTOR® OUTFITS PRICE PROMOTION

ONE MORE REASON TO CHOOSE A JOURNEYMAN®

Victor is one of the oldest and most widely recognized names in gas equipment in the world, and you already trust the Victor Professional Journeyman and Journeyman II Outfits to be the safest in the industry. These heavy duty outfits feature the new Victor Professional Edge™ Series regulators, and come equipped to cut up to 3/4" (19mm), and are capable of cutting up to 8" (203mm) with optional tips. The included welding nozzles allow the Journeyman to weld up to 1/2" (13mm), the Journeyman II to weld up to 1/8" (3mm), and both weld up to 3" (76mm) with optional nozzles. Now, with special limited time promotional pricing, we are giving you yet another reason to choose a Journeyman!
