

CG2-11G

CG2-11

MAIN TECHNICAL PARAMETER

Item	Model	CG2-11G	CG2-11
Rated Input		Hand	1PH 220V 50/60HZ
Cutting Thickness (MM)		6-50	6-50
Cutting Speed (MM/MIN)		Hand	50-750
Circle Diameter (MM)		Min 100	Min 108
Dimensions (MM)		420x280x460	350x310x180
Net Weight (KG)		13	20

OPTIONAL

- Guide Band For Diameter Above OD600

AVAILABLE ACCESSORY

CG2-11G
 1set Chain (52pcs/2470mm)
 1set Gas Cutting Torch With Hose & Attachment

CG2-11
 1PC Steel Wire Rod 1set Gas Cutting Torch With Hose & Attachment

CHARACTERISTIC

CG2-11G

- Pipe-cutting machine makes cutting and beveling jobs quick, easy and accurate. More flexibility - an extensible chain guides the machine body assembly as it moves along the pipe circumference. Simple construction - easy maintenance. Good quality cuts.

CG2-11

- As equipped with two groups of magnetic rollers, the machine is able to absorb on steel pipes to make an automatic circular crawling for the gas cutting of steel pipes. Its bevel tip can make a gas cutting of grooves, and can also make horizontal vertical and face upward gas cuttings. The machine is characterized by excellent circular gas cutting compact constructing stable travelling easy operation, etc.. It is widely used for gas cutting of steel pipes is piping engineering.
