

Armaflex® Accessories

Versatile and professional

► Armaflex 520 Adhesive

Armaflex 520 Adhesive is a yellow-coloured, low-viscosity adhesive for use with Armaflex insulation. It is specially formulated to create uniform and safe bonding of seams and butt joints, and for adhering Armaflex to cleaned metal surfaces. Armaflex 520 is easy to apply, and dries quickly to speed installation. Service temperature ranges from -200°C to +105°C, making it suitable for a wide range of commercial and industrial applications.

► Armaflex 820 Adhesive

Armaflex 820 Adhesive is a black-coloured, low-viscosity adhesive for use with Armaflex insulation. It is specially formulated to create uniform and safe bonding of seams and butt joints, and for adhering Armaflex to cleaned metal surfaces. Service temperature ranges from -50°C to +60°C, making it ideal for most chilled water and duct applications.

► Armaflex HT625 Adhesive

HT625 is one component adhesive, which has been developed to bond Armaflex insulation applied on high temperature lines. Especially well matched with HT/Armaflex, it guarantees a homogeneous and safe bonding at joints and seams.

► Armaflex Tape Self Adhesive

Self adhesive tape is available for Class 1 Armaflex, Class O Armaflex, Armaflex MC, NH/Armaflex, HT/Armaflex which may be used to insulate difficult shapes or areas that are not easily accessible. Available in a thickness of 3 mm and width of 50 mm.

► Armafinish WB Paint

Armafinish WB Paint is a water based coating, using an advanced ter-polymer resin system. When properly applied, the coating is suitable for protection of Armaflex materials against sunlight, UV radiation and chemical attack. The coating when fully cured, maintains the flexibility, resistance to water vapor and fire performance of Armaflex material. Packing is 1 gallon per can.

► Armaflex Cleaner

Armaflex cleaner is a clear and volatile liquid. It is used for the removal of grease, oil and dirt from surface prior to the use of Armaflex adhesive or Armafinish WB Paint. The cleaner may also be used to clean brushes and tools which have become contaminated with Armaflex adhesive. Packing is 1 litre per can.

► Armaflex Gluemaster

Glue pump enhanced for use with Armaflex adhesives. Metal can and brush in one with dose pump. Gluing is faster and more efficient than manual application, requiring no manual "dunking" of an application brush. By adequately spreading the glue onto the surface, gluemaster provides savings by reducing waste to an absolute minimum. Spare brushes also available.

► Armaflex Knife Set

Armaflex knife set comes with three different length knives, a sharpening stone and plastic tube for storage. It provides clean cutting of Armaflex tube and sheet for making high-quality joins.
