

NIPPLE DRINKER

Nipple A5-Tengah untuk Ayam dan Puyuh, bisa diletakkan diantara skat kandang baterai, sehingga ayam/puyuh bisa minum dari sisi kanan dan kiri. Mangkok atau cawan berfungsi agar tetesan sisa air setelah nipple dipacok dapat ditampung di mangkok, sehingga lantai kandang tetap terjaga kering dan rendah amoniak. Ayam/puyuh lebih sehat. Mangkok A5-Tengah bisa dilepas, ingin digunakan atau dilepas tergantung kebijaksanaan peternak.

Spesifikasi & Keterangan :

- + Material Plastik Murni dan Stainless Steel
- + Produk High Quality. Ketahanan 5-10 tahun tergantung perawatan
- + Bisa dibongkar dgn tangan kosong, dibersihkan dan digunakan kembali
- + 360 derajat bisa dipatok segala arah
- + Dipasangkan ke pralon 3/4 inch (bisa 1/2 inch dengan ditambah potongan pralon untuk bantalannya)

Cara Aplikasi :

- + Jika kandang baterai = 1 Nipple untuk 2-4 ekor
- + Jika kandang postal = 1 Nipple untuk 10 ekor

- + Bersertifikat dan telah lulus uji di Institute Pertanian Beijing.
- + Mengurangi penyebaran bakteri dan kuman pada air minum
- + Bisa memberikan Vitamin yg dicampur ke air minum dan betul-betul akan maksimal terserap ke ayam/puyuh
- + Menghemat penggunaan air
- + Hemat listrik pada pompa air utama sampai 30%
- + Hemat tenaga, waktu, Efisiensi kerja
- + Tidak ada pembuangan pakan di tempat minum
- + Polusi udara rendah karena fases kering tidak terkena air

NIPPLE DRINKER

Product Description Nipple A5-Central for Chicken and Quail, can be placed between the battery skate holder, so the chicken / quail can drink from right and left side.

A bowl or saucer serves to keep the water droplets after the nipple is plugged into a bowl, so the floor of the cage is kept dry and low in ammonia.

Chicken / quail is healthier. A5-Central bowl can be removed, wanted to be used or removed depending on the wisdom of the breeder.

Specification & Description :

- + Pure and Stainless Steel Plastic Materials
- + High Quality Products. 5-10 years endurance depends on treatment
- + Can be dismantled empty handed, cleaned and reused
- + 360 degrees can be pegged in any direction
- + Paired to a 3/4 inch pralon (can be 1/2 inch with pralon plus pieces for the pads)

How to App :

- + If battery enclosure = 1 Nipple for 2-4 tail
- + If the postal cage = 1 Nipple for 10 tails

EXCESS using Nipple instead of conventional :

- + A5-Middle bowl can be removed
- + Certified and have passed the test at the Beijing Agricultural Institute.
- + Reduce the spread of bacteria and germs in drinking water
- + Can give Vitamin mixed into drinking water and really will be absorbed into chicken / puyuh maximum
- + Conserve water usage
- + Save electricity on major water pumps up to 30%
- + Efficient power, time, work efficiency
- + No feed disposal at the drinking area
- + Low air pollution due to dry feses not exposed to water
