# SCBA

## Self-Contained Breathing Apparatus

The self-contained breathing apparatus (SCBA) is a self-contained respiratory protection device designed for individuals entering environments with low oxygen levels or filled with toxic or harmful gases. During regular operation, the mask's internal pressure is maintained higher than the atmospheric pressure, effectively safeguarding the user by preventing the entry of toxic or harmful gases into the mask. This ensures the safety of the user while working in such hazardous conditions.

### Specifications

Model	Work Pressure (Mpa)	Cylinder Volume (L)	Air Deposite (L)	Using Time (Min)	Alarm Pressure (Mpa)	Weight (Kg)	Package Size (mm)
RHZK5/30	30	5	1500	40-50	5.5 ± 0.5	12	755x460x290
RHZK6/30	30	6	1800	50-60	5.5 ± 0.5	14	755x460x290
RHZK6.8/30	30	6.8	2040	50-60	5.5 ± 0.5	10	755x460x290
RHZK9/30	30	9	2700	90-100	5.5 ± 0.5	11.5	755x460x290
