

BL-710 adalah produk atap yang memiliki profil gelombang lebar yang ekonomis untuk bentang menengah tanpa sambungan dengan cara pemasangan *boltless* menggunakan sistem *push lock*.

BL-710 is an economic and wide roof product that has wave profile for continuous medium span by way of boltless mounting of *push lock* system.

Profil gelombang/Wave profile (mm):

Pemasangan/Installation:

Keunggulan BL-710:

1. Rancangan modern original dari Fumira.
2. Bebas lubang dengan pemasangan sistem **push lock**.
3. Mudah dalam pemasangannya.
4. Profil lebar yang ekonomis.
5. Kapasitas tampung curah hingga 300 mm/jam.

BL-710 advantages:

1. Original modern design of Fumira.
2. Non-mounting hole with push **lock system**.
3. Easy installation.
4. Economical wide profile.
5. Rainfall withhold capacity up to 300 mm/hr.

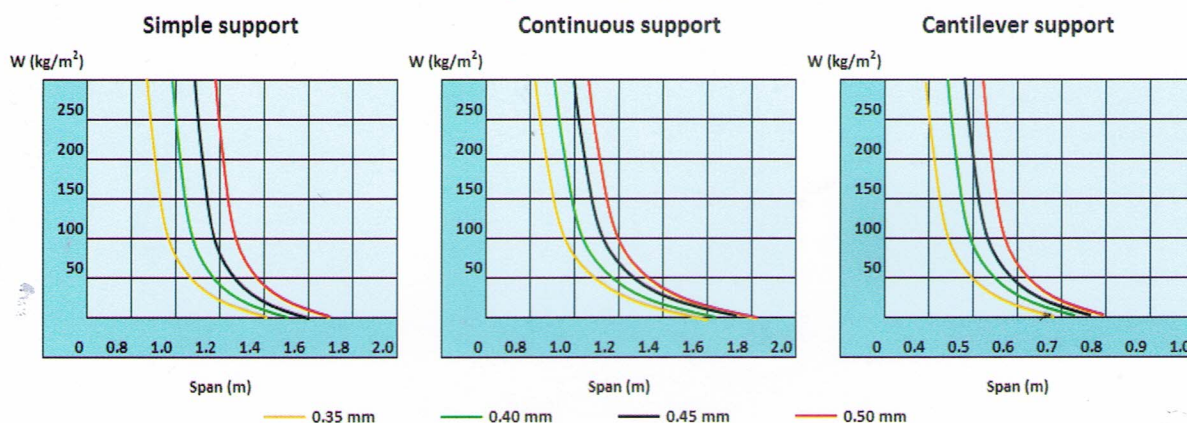

Spesifikasi produk/Product specification:

Base material coating	Zinc, Galvalume
Base material width (mm)	914
Total Coating Thickness (mm)	0.35, 0.40, 0.45, 0.50
Color coating (for ColoDeck)	ColorCoat, ColorFresh, ColorGrip
Maximum length (m)	Upon request
Maximum purlin distance (m)	1.6

Sifat penampang/Sectional properties:

Thickness (mm)		Unit weight		Momen of Inertia
Nominal	Total coating	kg/m	kg/m ²	I (cm ⁴ /m)
0.35	0.40	2.64	3.66	7.01
0.40	0.45	3.03	4.20	8.05
0.45	0.50	3.39	4.70	9.06
0.50	0.55	3.75	5.20	10.10
