Unplated - 50mm to 75mm

For liquid petroleum gas, compressed air and other gases and fluids. Available in plated male & unplated bevelled.

- Combination nipples are recommended for low pressure discharge and suction service for compatible liquids. **They are not for compressible products such as air or nitrogen on sizes 1/4" and above.**
- **King Combination Nipples are not recommended for steam.** The working pressure may vary with the construction of hose, the type of clamping system used and the application. Consult Dixon for recommendations.
- Not intended for compressed air.
