

Indirect lightning current counter LTD-J

Product Features:

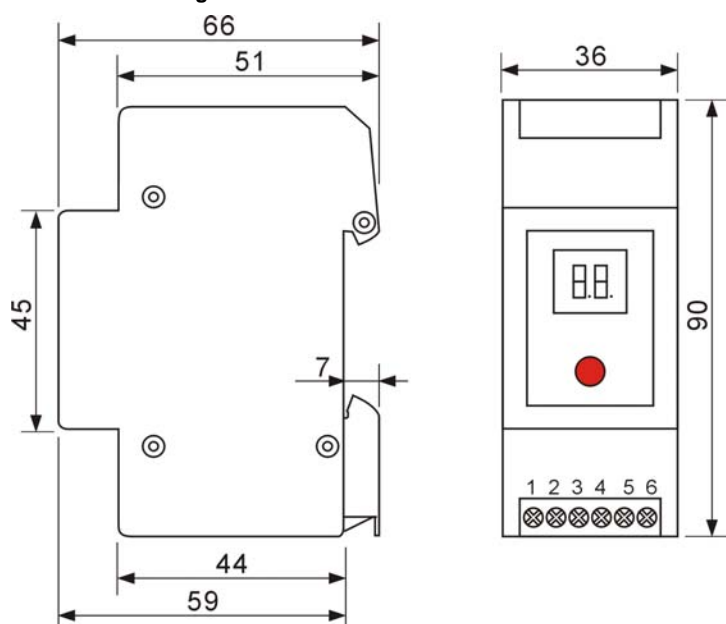

1. Accurate count.
2. Strong anti-interference ability.
3. Can save the data round one month even if power cut.
4. Din rail style, easily install and use match with surge protective device.

Technical parameters

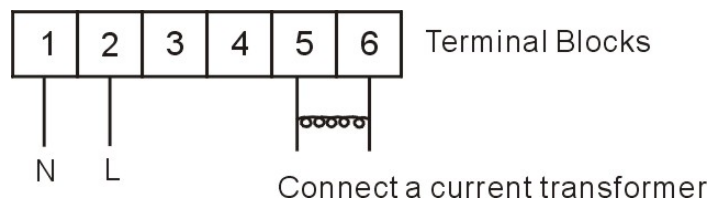

Model	Working voltage	Operating current	Counter numbers	Sampling
LTD-J	220 VAC	1 kA ~ 150 kA (8/20μs)	0 ~ 99 times	Current transformer

Dimension drawing

Connection drawing

N: Naught wire

L: Live line

Connect two lines of current transformer to block 5 and block 6, with a grounding cable (this is ground cable should from SPD's grounding) through the circle of transformer.
