

BOSTIK® - MSP TURBO 290ml

INSTANT STICKING ADHESIVE

SPECIFIC FOR JOINING VERTICALLY!!!

MAXIMUM RESISTANCE

DESCRIPTION

Ultra-resistant MSP high quality adhesive that is ideal for attaching heavy elements vertically, thanks to its high initial hold. This allows heavy panels and mirrors to be attached immediately.

ADVANTAGES

- Instant adhesion, even on wet surfaces.
- Rapidly cures, up to 4 times faster than classic putty.
- No solvents or isocyanates.
- Interior and exterior.
- Paintable.
- Very resistant to the outdoors: UV, humidity, and extreme changes of temperature (-40 °C to +100 °C).

APPLICATIONS

High adhesion to any type of material:

- | | |
|--------------------------------|-----------------|
| Aluminium | • Ceramics |
| Stainless and galvanized steel | • Natural stone |
| Zinc | • Glass |
| Copper | • Mirrors |
| Brass | • Polyester |
| Wood | • PVC |
| Brick | • Foam |
| Concrete | |

Excellent adhesiveness to wet surfaces.

INSTRUCTIONS FOR APPLICATION

1. The surfaces should be clean.
2. Apply with a putty gun between +5 °C and +35 °C, in strips or in dots separated approximately 15 cm apart.
3. Press the piece onto the putty hard for 3 seconds to adhere.
4. Do not put any force on the joint for the first 24 hours.

PRACTICAL ADVICE

- **CLEANING** → For fresh product, use Bostik Cleaner E. Sandpaper for dry product.
- **DURATION** → 18 months in its original packaging, in a dry location between +5 °C y +25 °C, protected from frost.
- **WARNING** → Read the instructions before using the product. In the event that an issue arises, consult the Security Card for the product at www.bostik.es Keep out of reach of children.

OUTPUT

1 cartridge = 12 meters straight that is 5 meters wide.
