

KUS Sea N voltage gauge NMVR-WS-8-16

Application

KUS Sea N Voltmeter for marine boats.

Product Description

NMEA2000 gauges are composed of Sea V series faceplate and Sea Q series main body except the tacho meter. NMEA 2000 tacho meter is able to display temperature, voltage, pressure, speed, engine working hour according to the request of the customer with the LCD display and the key operation function. The data switching can be easily realized by operating the UP and Down button.

1. NMEA2000 is based on CAN-BUS develop standard, which can achieve data exchange and sharing among different equipments.
2. Low cost, easy to installation, simple and easy to use.
3. Support PNP(plug and play), so the marine electric equipments installation, maintenance and exchange are very easy.

Warranty

Within one year after shipment except for improper installation and operation by the user.
