

Machine Picture:

This automatic filling machine, adopts plunger pump filling, Equiped with PLC and liquid crystal touch screen, easy to operate. All of the pneumatic parts and the electronics are famous brand from Japan or German, e.x., LENZE, FESTO, MITSUBISHI, ARTIC, etc. The body and the parts contacting with product is stainless steel, clean and sanitary comply with GMP standard. The filling volume and speed can be adjusted easily, and filling nozzles could be installed more or less according to actual needs. This filling machine can be used to fill various liquid products, e.x. edible oil, soybean sauce, vinegar, drinking water, etc.

Technical Parameter:

Name	Edible Oil Filling Machine
Filling volume	250-5000ml
Filling Heads	1—12
Capacity	30-70bottles/min
Control system	PLC+ Touch screen
Precision	±0.5%
Bottle height	200-400 mm (adjustable)
Voltage	AC220V or AC 380V
Power	1.2Kw.
Pneumatic	0.3cbm/min, 0.6-0.8Mpa
Dimension	L650*W110*H190cm
G.W.	900Kg.
