

## TSN-200 Battering machine

Power: 0.62kw

Capacity:100kg/h

Mesh conveyor Width: 200mm

Input height: 780mm

Output height: 780mm

Dimension: 1400\*550\*1320mm

1. The upper and lower belt clamp products to immerse into slurry and to wrap slurry evenly. The wind knife will blow extra slurry.
2. The distance between the upper and lower belt conveyor can be adjustable through adjust screw.
3. The batter is fed onto the machine by manual.
