

SYNMEL 讯美		AM Hard Tag		Specification									Container: 20 GP	All tests utilized a typical 58kHz system; data just for reference, real performance may vary Testing procedures: place finger under the center point of the soft-tag, moving horizontally towards the pedestal. When the pedestal alarms, distances from the pedestal are recorded and averaged as performance results.		
Product Name	Product Code	Product Picture	Dimension(l*w*h) (mm)	Weight (G)	Frequency	Color	Material	Component	QTY (PCS / carton)	Case Weight (kG)	Packaging Dimension (mm)	MOQ	Unit Price Rp	Typical single pedestal maximum alarming distance (cm)	Typical double pedestals maximum alarming distance(cm)	Remark
