

MINACRONE MILL / TYPE: MSG-M400

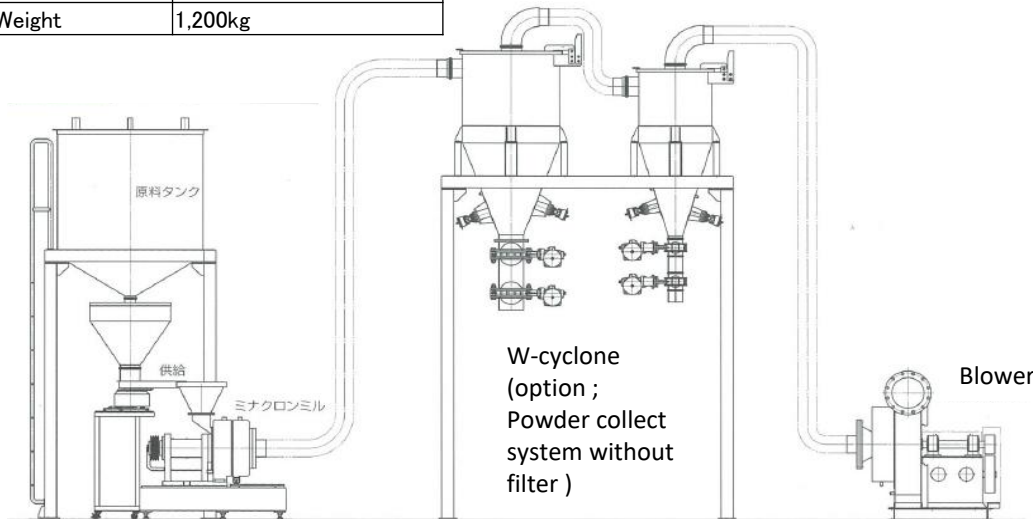

W-cyclone (Powder collector)

Features

- Preventing heat denaturation due to cyclone collect system
- Pulverizing particle size is Micron
- Not required classifier due to centrifuge function of impeller

Type	MSG-M400
Rotor diameter	400mm
Rotor impeller	8 pieces
Capacity	20~100kg/hour
Motor	15kW~22kW
Mill size	1200 × 850 × 810mm
Weight	1,200kg

Minacrone Mill

MINACRONE MILL / MINI

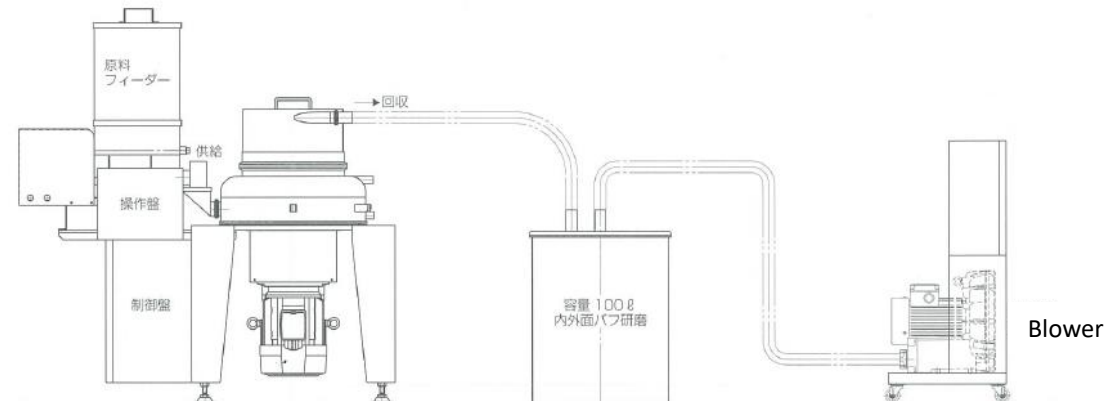

Type	MSG-MM
Capacity	5~20kg/hour
Motor	3.75kW
Mill size	700 × 700 × 800mm
Weight	150kg

Disassemble without special tools

Features

- Compact design
- Various application
- Pulverizing Micron Size
- Easy cleaning

Minacrone Mill
