

## PRO START 2824 12-24V

12V

24V

### Overview

#### PRO START 2824 12-24V

cod. 829517

Battery-powered starter suitable for 12-24V starting of cars, vans, boats, agricultural vehicles, power sources etc. When connected to the cigar-lighter outlet it maintains the voltage on all circuits during battery changes and is also a 12V power source for use in emergencies. Fit with a safety switch for starting, it does not damage the electronics of the vehicle and allows for a large number of starting operations before being recharged. PRO START 2824 can be recharged using the special power supply, connected to the mains network, or using the cigar-lighter outlet of the vehicle (for the safeguard of the battery, charge for 12 hours before use, charge again after each use and every 3 months in any case). Characteristics: safety switch \* overload protection \* polarity reversal protection acoustic/luminous alarm \* high efficiency led lamp \* battery charge status led \* battery charging status led \* 2 x 12V jack sockets \* cable-holder pocket. Complete with: 230V AC 12V DC power adaptor, positive-negative cables with clamps, high efficiency lamp, double jack cable.
