MD6350 METAL DETECTOR

Color	Yellow & Black
Stretch Length	42.5-51.2 inches
Battery	4 x 1.5V AA
Working voltage	6 V
Sensitivity	US 25/50 Cent: 300mm
Detect depth	30-250 mm (Depends on the target area you detect)
Search coil	Waterproof, interchangeable
Freguncy	8.58 KHz
Search Modes	LCD & Sound Mode
Package Weight	2.95 kg
Current: Standby	50mA Max: 270mA
Net weight	1.7 kg

Product Description

The MD-6350 includes exclusive Target ID technology and patented discrimination features. This technology features two indicator scales that allow you to see the detector's discrimination setting (Lower Scale) as well as the analysis of each detected target (Upper Scale).

The MD-6350 also features Enhanced Iron Resolution (additional resolution for separating desirable targets from iron junk in cluttered areas) and a standard 8.5" x 11" elliptical Double-D search coil engineered for optimum performance in more challenging mineralized soils.

Your MD-6350 metal detector is the most advanced of its kind in the industry. Whether you are experienced or a beginner, this machine is well suited for a wide variety of your detecting environments. With One-Touch operation, the

MD-6350 powers on with the touch of a single button, adjusts easily for ground minerals and is immediately ready to begin searching.

The search coil is waterproof.
