

POWERVERSION

Modular area-lighting ceiling-recessed fixture family. Technical, powerful and flexible high-bay lighting delivery instruments designed and built to tackle all environments.

Luminaire Structure

- A high quality aluminum extrusion not only houses the control gear and the light modules but it also acts as the primary thermal management device, eliminating the need for additional and sometimes bulky heat sinks while improving the overall performance and extending the life span of the LEDs
- Stainless steel fasteners in grade 316
- Durable silicone rubber gasket
- Impact resistant toughened glass diffuser
- The luminaire is treated with a chemical chromatised protection before powder coating, ensuring high corrosion resistance
