

PURSOS® SHP LED Flood Light Datasheet

PURSOS® SHP LED Flood Light is the extension version of PURSOS® HP LED Flood Light. With special optical design in slim, rugged aluminium alloy housing, PURSOS® SHP LED Flood Light is well suited to use in airports, harbors, sport centers and skyscrapers for forward lighting applications such as high mast lightings, flood lightings and façade lightings. Highly durable construction and remarkably long lifetime of outdoor rated PURSOS® SHP LED Flood Light offers highly consistent, high CRI white light and is the ideal replacement for traditional 700W to 2000W HID flood lights with excellent energy savings.

Benefits

Special optical design

- Ultra-narrow, narrow and medium beam optics for different kinds of façade and flood lighting applications

IP67 protection and robust design

- Test proven, robust mechanical design for extreme outdoor environment
- Corrosion-resistant coating resist up to 1000hrs of salt spray
- Pass 100,000 times mechanical vibration testing
- Provide up to 20KV surge protection

Light weight and compact

- The brightest flood light in its class, dimensions comparable to traditional flood light.

Long lifetime

- 50,000 hours lifetime saving maintenance cost

Applications

- Airports and harbors
- Stadiums and exhibitions
- High building flood lightings
- Streets, squares and stations

PURSOS® SHP LED Flood Light

System Specifications

Power	AC line
Dimmable	ON/OFF, *1-10V dimming
Mounting Type	Bracket mounting
Operating Temperature	-40°C to +50°C
Storage Temperature	-45°C to +85°C
Environment	Outdoor (IP67, IK08)
Lumen Maintenance	L70 @35°C - 50,000hrs
Safety Approval	Electrical Protection Class I, CB, CE, CQC, Photobiological safety, RoHS

Items with * are non-standard items and are available on request. Specification is subject to change due to continuous improvement.

Due to the special conditions of manufacturing process of LED, the typical data of technical parameters can only reflect statistical figures and do not necessarily correspond to the actual parameters of each single product which could differ from typical data.

Exceeding maximum ratings for operation voltage will cause hazardous overload and will likely destroy the LED module.

Exceeding maximum ratings for operation and storage temperature will reduce expected life time or destroy the LED module.

10/16 V1.2 · Specifications are subject to change without notice. Errors and omission excepted, always make sure to use the most recent release.
