The Dialight® Reliant™ LED High Bay

Now available in the Americas

NOVEMBER 2019

THE RUGGED AND EFFICIENT PERFORMANCE YOU TRUST, NOW FOR LIGHT INDUSTRIAL APPLICATIONS.

The Dialight Reliant High Bay represents an entirely new approach to industrial lighting, offering the same performance, durability and longevity you've come to expect from Dialight, but with a new, state-of-the-art design for lighter duty applications. This first-of-its-kind fixture features Dialight's new, next-generation polymeric housing with a smooth surface that sheds dust and moisture and offers Dialight's industry-leading 10 year warranty. This polymeric powerhouse features the same durable material found in bulletproof glass, tactical armor and U.S. Air Force cockpit canopies. The Reliant is designed for use in light industrial applications and lighter-duty areas of heavy industrial facilities, such as warehouses, corrugating plants, packaging facilities, light manufacturing, automotive assembly areas, aviation facilities, chemical storage areas and other large indoor spaces.

WARNING / DISCLAIMERS:

Installation & secondary retention. The use of this product without proper installation (including secondary retention / netting) and periodic inspections, could cause severe injury or death. Dialight recommends that all installations should use secondary retention / netting (appropriate to the installation environment) as applicable. Dialight products are intended for ultimate purchase, installation and operation by knowledgeable persons trained in the functional assessment, installation, use and maintenance of such products and all customers (including but not limited to end customers) are responsible for assessing the suitability of Dialight products for any given installation requirement. It is the exclusive responsibility of the contractor, installer and/or end-user to: (a) determine the suitability of the product for its intended application; and, (b) ensure that the product is safely installed (with secondary retention / netting as appropriate) and in compliance with all applicable laws and regulations.

Product specifications & warranties. All product information provided is, to the best of Dialight's knowledge, accurate as of the date of publication. All values and performance data herein are design or typical values when measured under laboratory conditions. The information herein is subject to change without notice. The products / software detailed herein are subject to applicable warranties and terms and conditions of use/purchase. Unless agreed otherwise in writing by an authorized representative of Dialight, Dialight does not represent that its products are fit for any particular purpose and accepts no liability for the installation and/or unauthorised use of its products. When ordering, refer to www.dialight.com for current versions of: (a) relevant product documentation (including relevant product data sheets); (b) Dialight terms and conditions of sale; and, (c) the relevant product warranties. To the extent that any contract is deemed formed between Dialight and the purchaser of Dialight products and/or an end-user, versions of documents available at www.dialight.com as at the date of sale shall be the versions incorporated therein. In the event of any discrepancy between this document and information provided at www.dialight.com, the latter shall prevail.

Exclusion of liability. To the extent permissible under the relevant law, Dialight disclaims all liability for personal injury and/or other damage resulting from any dislodgment or other dislocation of its products. Whilst Dialight has used its reasonable endeavours to ensure the completeness and accuracy of information herein, Dialight does not assume any liability for damages resulting from use of this information or for any third-party representations made in relation to Dialight products.
